- A Real Estate CRM is software that manages property deals, leads, client details, follow-ups, site visits, and the entire sales pipeline. It helps agents with reminders, tracking, automation, and reports, making the sales process faster and more organized.
- Developed mayrahomes.com, a real estate website showcasing premium residential and commercial projects with dynamic property listings and lead generation features.
- Built azagems.com, an e-commerce platform for selling and delivering certified gemstones with secure payment integration and order tracking.
- DhanBhumi is a real-estate marketplace/portal that offers property listings all developers projects along with buying, selling, renting services, and property portfolio management.
- Developed ritukindergarten.in, an educational website providing insights into early childhood education with admission inquiry forms and a responsive design.
